Scholarship Information

National Transportation Center Foundation scholarships provide funding for individuals pursuing training programs that enhance their career and technical skills in the transportation industry.

Eligibility

Both the **individual** applying for a scholarship and the **training program** and associated costs must meet eligibility criteria for funding.

Eligible Training Programs and Associated Costs

All training programs directly affiliated with the National Transportation Center are eligible recipients of NTC Foundation scholarship funds, unless offered to an exclusive audience or otherwise marked. NTC-affiliated programs can take several forms depending on the sponsor of the training. Some typical examples include:

- NTC-designed programs including Electrical and Electronics and Diesel Technician Training
- Vehicle OEM training
- Tier 1 Supplier training
- Association Sponsored Training for Drivers, Logistics Personnel, or Service Technicians

The NTC may consider funding for training programs that are not directly affiliated with the NTC on a case-by-case basis. Such programs may include, for example, those offered by other vetted industry organizations.

Scholarship funds may be applied toward training fees and any of its directly associated laboratory fees or equipment fees. Additional associated costs including housing, transportation, supplies, or tools may also be considered for funding where reasonable.

Individual Eligibility

Any individual seeking training in an Eligible Training Program to advance his or her career in the transportation industry is eligible to apply for a scholarship, provided he or she meets these minimum criteria.

1. **Gap in funding** -- Applicants must assert a gap in funding for training. A gap in funding is any inability to pay the full cost of training and eligible supporting costs after considering personal financial contributions, employer reimbursement programs, and other forms of payment NOT including private student loans. Applicants must apply other forms of payment assistance to their NTC training and request scholarship funding to cover any remaining gap.
2. **Age** -- Applicants must be 16+ years old on the date of starting a funded training program; legal guardians for any minor applicants must submit additional agreements.
3. **Background checks** -- Adult applicants must be willing to comply with any requests for a background check and agree that the information may be used by the NTC on a case-by-case basis to determine eligibility for NTC programs.
4. **Drug screening** -- Applicants must be willing to consent to standard drug-testing methods at any point throughout their training programs and agree that positive tests for illegal drug use may result in expulsion from NTC-affiliated programs and the removal of funding.

These minimum criteria apply across all NTC Foundation scholarship-funded training and NTC employment programs. In addition, **individuals must submit the following with this application to be considered for scholarship funding:**

1. **Scholarship Cover Letter** -- A structured statement making the case for an applicant's access to scholarship funding
 - a. **Career and Employability Statement** -- A 250-750 word letter outlining previous experience, career objectives, and how this training helps meet those goals. This statement should also draw widely on the individual's experience to demonstrate his or her motivation to succeed and possession of core employability skills like timeliness, communication, or teamwork.
 - b. **Execution Plan** -- A 250-750 word letter outlining the individual's practical plan for success in the program; such a letter might discuss the individual's concrete study plan, how he or she will get to and from training, and, in general, how he or she will be a successful trainee.
 - c. **Statement of Need** -- In 250-750 words, describe your financial circumstances or financial need that motivates your request for a scholarship.
2. **Resume** -- A concise record of an applicant's experience and accomplishments
3. **Evidence of good standing** -- Applicants must show evidence of good standing with one or more organizations of which they are or have been a part. Such an organization may include a school, past or current employer, a vocational organization, or a military service branch, for example. Evidence of good standing may take several forms including a transcript, letter of recommendation from a supervisor or advisor, or honorable discharge paperwork. In the event

that no adequate evidence of good standing is available, an applicant may request an interview with NTC staff as an alternative.

Applicant's may wish to copy or download this template for submission: <http://bit.ly/ntcscholarshipapp>.

The recipient of the scholarship should demonstrate a desire to start or develop his or her career in the transportation industry. Applications will be considered independently and awarded without regard to sex, race, color, national origin, or religion. Preferential consideration will be given to Veterans honorably discharged from the service.

Scholarship Review Process

The Board of the Foundation or its designees review scholarships on a rolling and as-needed basis.

What Voids Scholarship Funding

The scholarship will be voided on the basis of expulsion or dismissal from training or discontinuance of the education process. In addition, the Board of Directors reserves the right to withdraw the scholarship for unusual or uncustomary circumstances at their discretion.

Method of Awarding

The Foundation Board of Directors or designees will approve and notify the applicant and the training program administrator of its approval. Monies will be paid directly to the organization(s) providing services, including training, housing, equipment, or supplies vendors. Notification will be mailed and emailed to recipients to the address provided.

How to Apply

If you wish to apply for a scholarship, submit the appropriate materials outlined above at the same time you submit this overall application. Unless otherwise indicated, we assume that the scholarship amount requested is equivalent to the **gap in funding** identified in your Finance Worksheet and Agreement.
